

Every primary school in the country has received additional funding from the Department for Education for sport and physical education in this academic year. The PE and Sport Premium is part of a series of programmes led by the department to improve healthy lifestyles among pupils and tackle childhood obesity. Healthy eating, physical activity and sport not only help tackle childhood obesity, but can also have a positive impact on pupils' behaviour, attendance, concentration and attainment, helping children to reach their full potential.

Jordans School received the sum of £16000 plus £10 per pupil to be used specifically for sport and wellbeing.

Schools must use the funding to make additional and sustainable improvements to the quality of PE and sport that they offer. This means that Sports Premium should be used to:

- develop or add to the PE and sport activities that your school already offers
- build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years

There are 5 key indicators that schools should expect to see improvement across:

- the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be at school
- the profile of PE and sport is raised across the school as a tool for whole-school improvement
- increased confidence, knowledge and skills of all staff in teaching PE and sport
- broader experience of a range of sports and activities offered to all pupils
- increased participation in competitive sport

Possible uses for the funding might include:

- Hiring specialist PE teachers or qualified sports coaches to work with primary teachers when teaching PE.
- Supporting and engaging the least active children through new or additional Change4Life clubs.
- Paying for professional development opportunities for teachers in PE and sport.
- Providing cover to release primary teachers for professional development in PE and sport.
- Running sport competitions, or increasing pupils' participation in the School Games.
- Buying quality assured professional development modules or materials for PE and sport.
- Providing places for pupils on after school sports clubs and holiday clubs.
- Pooling the additional funding with that of other local schools

Staff and governors decided to spend the money in the following ways:

**1. To improve extra-curricular activities across the school**

- Specialist, qualified PE coaches for Year R, 1 and 2 have provided outstanding provision.
- Lunchtime staff and teachers work alongside the coaches to improve their own subject knowledge.
- The provide extra-curricular activities for the children to enjoy such a Scooting Road Safety activities in conjunction with Micro Scooter.

**2. To improve the provision of PE - New equipment purchased to increase participation**

**3. To improve playtime facilities for all children - Purchase outdoor toys and equipment.**

**4. To participate in the locals school's Sports Partnership – Local schools joining together at a local secondary school to compete in sporting events and enjoy learning new skills.**

The impact on pupil participation and attainment leading to all pupils developing a healthy lifestyle is as follows:

- All children in school receive 2 hours of quality PE provision within the curriculum.
- All children are offered the opportunity to participate in a lunchtime sports club.
- A high proportion of children participate in school sports club.

Future aspirations for PE Funding:

- Purchase of new play markings/surfacing in the playground.
