

Sports Premium Funding

2015/2016

Every primary school in the country has received additional funding from the government for sport and physical education in this academic year.

Jordans School received the sum of £8215 for 2015/2016 to be used specifically for sport.

The four objectives of the Primary PE and Sport Premium funding are:

- To improve the quality of existing PE teaching through continuing professional learning in PE for generalists, so that all primary pupils improve their health, skills and physical literacy, and have broader exposure to a range of sport.
- To increase participation levels in competitive sport and healthy activity of pupils, and maintain these into adolescence.
- To increase the quality of initial teacher training in PE and sport, and to promote PE specialisation in primary level workforce.
- Schools understand and value the benefits of high quality PE and sport, including its use as a tool for whole school improvement.

Possible uses for the funding might include:

- Hiring specialist PE teachers or qualified sports coaches to work with primary teachers when teaching PE.
- Supporting and engaging the least active children through new or additional Change4Life clubs.
- Paying for professional development opportunities for teachers in PE and sport.
- Providing cover to release primary teachers for professional development in PE and sport.
- Running sport competitions, or increasing pupils' participation in the School Games.
- Buying quality assured professional development modules or materials for PE and sport.
- Providing places for pupils on after school sports clubs and holiday clubs.
- Pooling the additional funding with that of other local schools

Staff and governors decided to spend the money in the following ways:

1. To improve extra-curricular activities across the school

- Specialist, qualified PE coaches for Year R, 1 and 2 have provided outstanding provision.
- Lunchtime staff and teachers work alongside the coaches to improve their own subject knowledge.
- The whole school took part in a trampolining experience at Rush UK. This gave the children the chance to try a sport that we are unable to offer at school.

2. To improve the provision of PE

- New equipment purchased to increase participation

3. To improve playtime facilities for all children.

- Purchase outdoor toys and equipment.
- Specialist coaches to provide lunchtime activities for the children promoting positive play experiences.

The impact on pupil participation and attainment leading to all pupils developing a healthy lifestyle is as follows:

- All children in school receive 2 hours of quality PE provision within the curriculum.
- All children are offered the opportunity to participate in a lunchtime sports club.
- A high proportion of children participate in school sports club.

Future aspirations for PE Funding:

- To improve the participation in interschool activities – join a local hub – Dr Challoners.
- Purchase of new play markings in the playground.
