WOW!
Science Day

"It was amazing"

Dear Parents,

Our science day was a huge success! The children were lucky to have so many different scientific experiences. Our visiting scientists were so inspiring, as were our staff scientists! Ask your child about friction and they will have something great to say! The bubble workshop was amazing followed by exciting workshops in the afternoon. Volcanoes, pumping hearts, lava lamps and wormeries – all in one day! Huge thanks must go to the wonderful staff team here at Jordans for all of their incredible hard work, energy and enthusiasm as always to make the day such a triumph.

Topic finale Friday 24th March 9-9.30am

This session will be a 'book look' – a chance for you to celebrate all of your child's hard work this term and enjoy looking at their work.

PCSO Oliver Hughes

PCSO Oliver and his colleagues visited us today to talk to the children about keeping safe. Our PSHE theme across the school this half term is keeping safe and who better to have visit us than Police Officers themselves. Due to this visit we will be celebrating our 'well done' children next Friday instead.

Sickness Bug

Unfortunately from time to time schools do suffer with sickness bugs, some of our children have caught this bug and have been poorly. Please can I draw your attention to the following guidance from the NHS o which Jordans School adheres.

Vomiting and diarrhoea. *Children with diarrhoea and/or vomiting should definitely be kept off school until at least 48 hours after their symptoms have gone. Most cases of diarrhoea and vomiting in children get better without treatment, but if symptoms persist, consult your GP*

Amnesty for Library books!

Could you please check through your bookshelves at home for any library books from Jordans and return them to school. Your child will only be able to bring home a new library book if they have returned the previous one.

Thank you for your support.

Mrs Bancroft
Headteacher

Next Week's Learning

Year R

Literacy: Writing about our favourite parts of the trip and retelling 'What the Ladybird Heard Next'.

Maths: Farmer Pete is having problems with his sheep! Exploring different ways of arranging a given number of objects.

Special Requests/Messages: Clean paired colourful socks that you don't want anymore would be much appreciated for a maths activity. Reading books will be changed Tuesday due to our trip.

Year 1

Literacy: All about Division! We will be sharing objects into equal groups and tackling division word problems.

Maths: We will be continuing with our recounts of our class trip and reading and writing Spring themed poems.

Special Requests/Messages: Year 1 had a great trip to the Oxford Botanic Gardens, their experience of the rainforest really brought their topic alive and all the children showed a keen interest. Well done Year 1!

Year 2

Literacy: We will be continuing with comprehension and Easter poems.

Maths: Our focus will be measure, statistics and investigating the inverse relationship between multiplication and division.

Special Requests/Messages: We are looking forward to taking the children to Shortenills next week. They have some great activities planned! Please could we ask that any children who have waterproof trousers and jackets bring them in on Wednesday. All children need to bring a pair of wellies for the trip. The staff at Shortenills have also suggested sending in a spare long sleeved t-shirt, in case they do get sleeves wet during our investigations. Please ensure they are named.
